

## CANADIAN STUDIES @ STFX

"Students in BA programs may count as a pair or minor (Subject B) courses that have as their common characteristic substantial Canadian content. The minor must be made up of at latest two subjects and not more than three, and may not include any course at the 100 level. Subjects (but not courses) drawn upon to make up such a concentration may also be used to make up other subject requirements for the BA degree (*STFX Academic Calendar*, p. 45, print edition).

The following courses are tentatively scheduled to be offered during the 2009-2010 academic year. Please see the online version of the timetable for any changes.
