

September 28, 2009

Hello MSB,

As a follow-up to Friday's email, I would like to comment on the fire alarms that occurred this morning.

The alarms this morning were due to smoke in the Café while Sodexo was preparing food. FM was on site and confirmed that the smoke alarms worked as intended as there was sufficient smoke to set off the alarms.

We apologize for any inconveniences however, as noted below, the important thing to remember is that the system is there for your safety and you must never ignore an alarm.

Thank you,
